

SOUTHERN WIA ECONOMIC PROFILE

April 2011

The Southern Workforce Investment Area (Southern WIA) is comprised of ten counties: Atoka, Bryan, Carter, Coal, Garvin, Johnston, Love, Marshall, Murray, and Pontotoc counties. This profile will provide an overview of population, employment, average wage, and commuting patterns specific to the Southern WIA.

According to Census Bureau estimates, the region's population reached 221,564 people in 2009, growing by an estimated 11,995 people since the 2000 Census. The region's resulting growth rate between 2000 and 2009 was 5.7%, slightly less than the state's average growth rate of 6.9%.

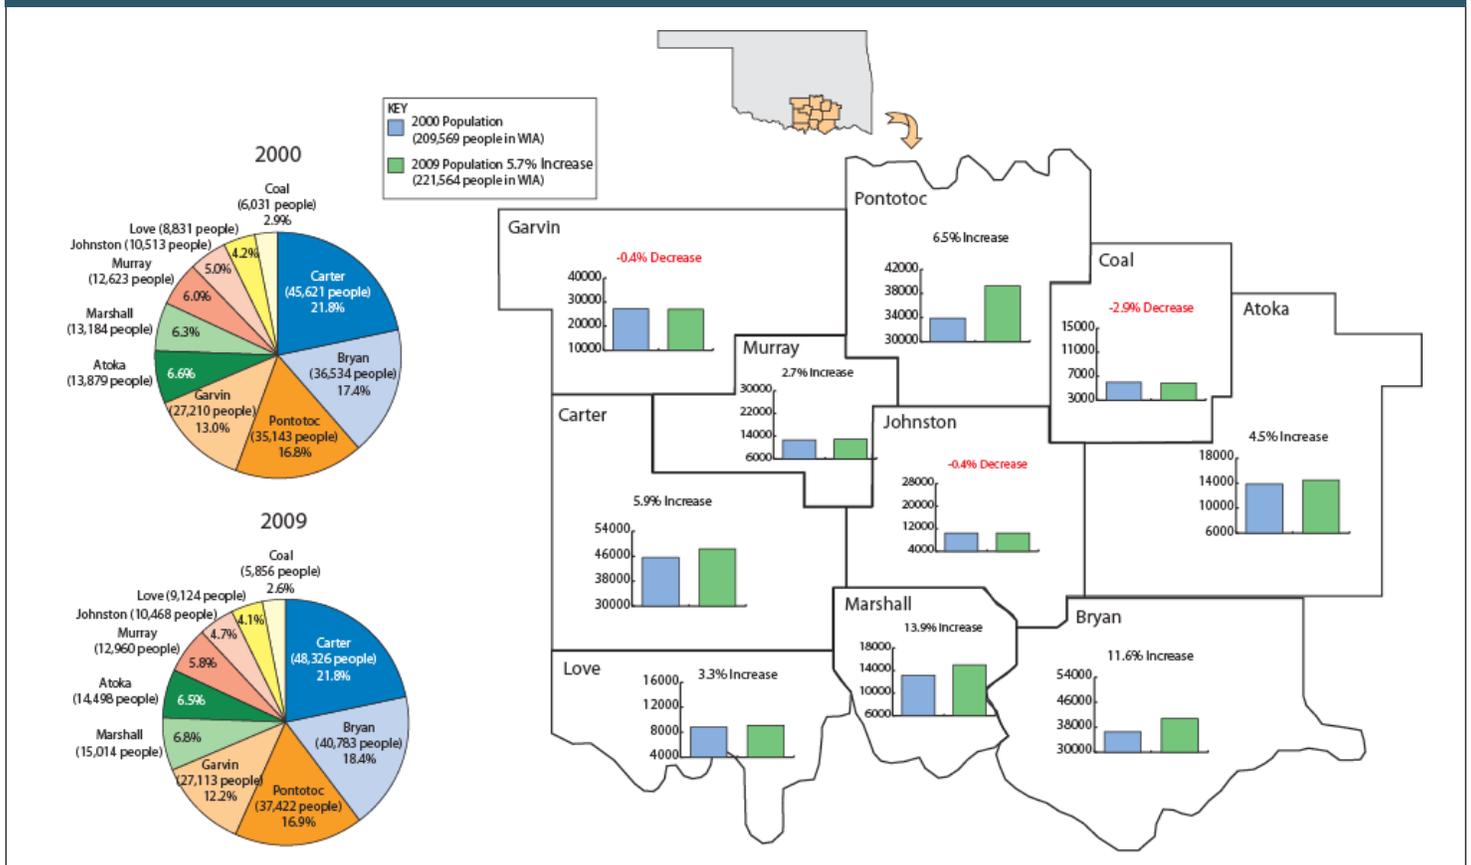

Southern WIA's 2009 population estimate. Bryan County had the largest numeric growth in the region, adding 4,249 people for a growth rate of 11.6%. At 13.9%, Marshall County had the largest percentage growth between 2000 and 2009, adding 1,830 people. Coal, Garvin and Johnston counties each experienced population declines between 2000 and 2009. Population declines were -175, -97 and -45 respectively.

POPULATION

The accompanying graph and pie charts relate county and regional population information from the last decennial census in 2000 to 2009.

No single county can claim to be the Southern WIA's population center, but three counties combine to represent more than half the region's population. Carter, Bryan and Pontotoc counties collectively represent 57.1% of the

SOUTHERN WIA POPULATION & DISTRIBUTION: 2000 - 2009

SECTOR EMPLOYMENT

The accompanying table relates sector employment totals and employment changes in the Southern WIA between 2005 and 2010 and projects employment for 2015. Unlike the US Bureau of Labor Statistics reported employment figures, EMSI job estimates include data for non-employer establishments (partnerships and sole proprietorships), military staffing and agriculture employment.

The Southern WIA added 10,198 jobs between 2005 and 2010, growing by 8.6% over the entire time period and nearly doubling the state's growth rate of 4.5% for the same period. Eight of the region's ten counties exceeded the state's rate of job growth, as only Johnston County (1.6% growth) and Marshall County (3.7% job growth) had growth rates below the state average. Garvin, Coal, Murray and Love counties all had double digit growth rates, with growth rates of 11.1%, 14.4%, 21.3% and 28.9% respectively. Carter County accounted for 20.3% of the jobs added to the region between 2005 and 2010, adding 2,069 jobs for a net growth rate of 7.0%.

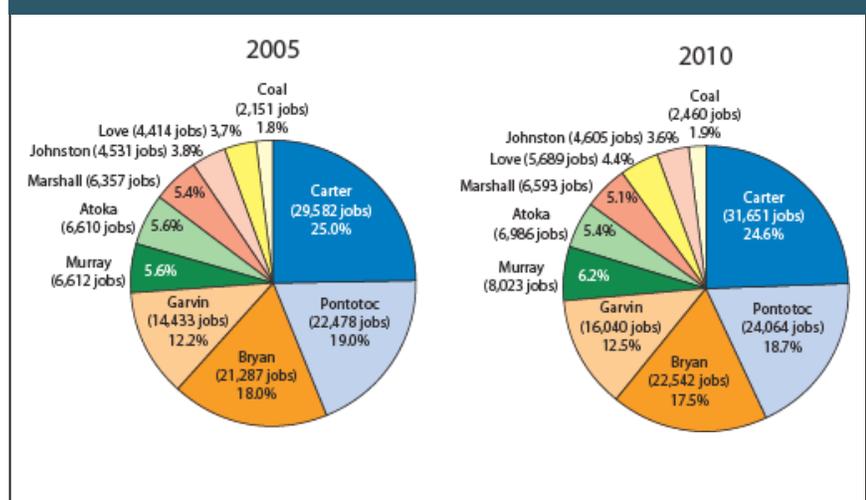

Within the region, the average worker earns an estimated \$30,124 per year, including benefits. Workers in the mining, quarrying and oil and gas extraction industry have the highest earnings at \$63,825 per worker on average. The utilities industry has the second highest rate of earnings per worker at \$54,009. Arts, entertainment and recreation workers have the lowest earnings at \$11,448 per worker.

SOUTHERN WIA JOB DISTRIBUTION 2005-2015

NAICS Code	Description	2005 Jobs	2010 Jobs	2005-2010 growth	2015 Jobs

SOUTHERN WIA JOB DISTRIBUTION: 2005 - 2010

Source: EMSI Complete Employment - 4th Quarter 2010 www.economicmodeling.com

Between 2005 and 2010, sixteen of the twenty main industry groupings experienced growth in net employment. The mining, quarrying and oil and gas extraction industry showed the largest numeric increase, adding 4,193 jobs to the region. This represented an 86.1% gain for jobs in that industry within the region. Government, including federal, state, local and tribal, had the second largest numeric increase, adding 3,580 jobs for a 14.7% increase. Manufacturing had the greatest net job loss between 2005 and 2010, losing a net 1,764 jobs in the Southern WIA. This represented a 17.5% decline in the size of the industry's workforce. The administrative and support and waste management and remediation industry also had a significant loss of jobs during that time period, dropping 698 jobs between 2005 and 2010.

The mining and government industries are forecast to experience continued growth between 2010 and 2015, with those two industries expected to account for a third of all job growth expected to occur during that time period. Both industries are expected to add approximately 2,000 jobs to the region between 2010 and 2015. The region is expected to add over 12,000 jobs for a growth rate of 9.3%.

OCCUPATIONAL EMPLOYMENT

The region's net number of jobs grew by 8.6% between 2005 and 2010 with the biggest numeric gains found among management occupations (+2,487) and construction and extraction jobs (+1,486). Overall job growth was higher than growth experienced at the state or national levels, and only two of the 23 main occupational categories experience a net job loss between 2005 and 2010. Production occupations declined by 1,195 for a drop of 13.2%. Farming, fishing and forestry occupations collectively declined by 57, a drop of 3.4%.

Looking forward to 2015, all occupational categories are expected to grow, with the exception of military. The region is expected to add over 12,000 jobs with an overall growth rate of 9.3%. The largest numeric growth is expected to occur in the occupational fields of management (+1,551), administrative support (+1,289), construction (+1,130) and sales (+1,088).

Source: EMSI Complete Employment - 4th Quarter 2010 www.economicmodeling.com

In addition to expected job growth, the region will also experience a significant number of occupational openings due to retirements and jobholder changes. These region is expected to experience over 27,000 job openings between 2010 and 2015, with the largest number of openings taking place in the fields of management (+3,359), sales (+3,122) and administrative support (+3,033). Jobs in the Southern WIA are largely office focused as management occupations, sales and related occupations (excluding retail), and office and administrative support occupations represent more than one third of all jobs in the region.

As might be expected, the region's top paying jobs include legal, health care, education and engineering related jobs. Legal occupations have the highest average hourly wage in the region, averaging \$26.04 per hour. Life, physical and social science occupations are second, earning \$25.33 per hour on average, while architecture and engineering occupations are third, averaging \$24.82 per hour.

Most jobholders earn less than the comparable state average hourly wage for their occupation, with the exception of those working in the farming, fishing and forestry (FFF) occupations. FFF jobholders earn \$12.26 per hour on average, compared to the statewide average of \$11.82 per hour.

Occupations in the Southern WIA are more specifically detailed in the following text, focusing on three categories; largest occupation, highest paying occupations, and fastest growing occupations.

LARGEST OCCUPATIONS

Within the Southern WIA, the top ten most common occupations represent slightly less than one fifth of all jobs present in 2010. While some minor differences exist at the county level, the most common occupations region wide include farmers and ranchers, retail sales workers, elementary and secondary education workers, truck drivers, office workers and laborers.

In 2010, there were over 8,400 farmers and ranchers in the Southern WIA, representing the most common occupation in each of the region's 10 counties. Almost 5,700 workers in the region held jobs as retail workers or cashiers, representing the 2nd and 3rd most common occupation in the region, though the ranking by county varied.

Truck drivers are among the top five occupations found in Atoka, Carter, Garvin and Johnston counties while Registered Nurses are among the top five for Bryan, Coal, and Pontotoc counties. Bookkeepers and accounting clerks are among the top five for Bryan, Carter, Love, Murray and Pontotoc counties. Elementary and secondary school teachers are among the top five in Love County.

SOUTHERN WIA LARGEST OCCUPATIONS (SORTED BY 2010 JOB COUNTS)

SOC Code	Description	2005 Jobs	2010 Jobs	2015 Jobs
11-9012	Farmers and ranchers	8,291	8,413	8,292
41-2031	Retail salespersons	2,773	2,992	3,305
41-2011	Cashiers, except gaming	2,481	2,704	2,801
53-3032	Truck drivers, heavy and tractor-trailer	2,411	2,393	2,659
43-3031	Bookkeeping, accounting, and auditing clerks	2,409	2,652	2,929
41-1011	First-line supervisors/managers of retail sales workers	2,022	2,057	2,125
53-7062	Laborers and freight, stock, and material movers, hand	1,900	1,708	1,797
29-1111	Registered nurses	1,687	1,936	2,175
43-6014	Secretaries, except legal, medical, and executive	1,672	1,792	1,881
43-9061	Office clerks, general	1,663	1,778	1,937
11-9199	Managers, all other	1,635	2,807	3,517
51-2092	Team assemblers	1,555	1,009	954
11-1021	General and operations managers	1,529	1,729	1,881
43-4051	Customer service representatives	1,406	1,199	1,341
35-3021	Combined food preparation and serving workers, including fast food	1,404	1,614	1,805

Source: EMSI Complete Employment - 4th Quarter 2010 www.economicmodeling.com

FASTEST GROWING FUTURE OCCUPATIONS

One quarter of all new jobs in the Southern WIA projected between 2010 and 2015 will be among the top ten occupations listed in the adjacent table. Collectively, the top ten occupations account for 2,964 projected new jobs when the Southern WIA as a whole is expected to add a net total of just over 12,000 jobs. Management, healthcare and office support occupations lead the region's occupation growth estimates between 2010 and 2015.

SOUTHERN WIA FASTEST GROWING FUTURE OCCUPATIONS

SOC Code	Description	2010 Jobs	2015 Jobs	2010-2015 growth	2010-2015 Growth %
11-9199	Managers, all other	2,807	3,517	710	25%
11-9141	Property, real estate, and community association managers	1,415	1,751	336	24%
41-2031	Retail salespersons	2,992	3,305	313	10%
43-3031	Bookkeeping, accounting, and auditing clerks	2,652	2,929	277	10%
53-3032	Truck drivers, heavy and tractor-trailer	2,393	2,659	266	11%
47-1011	First-line supervisors/managers of construction trades and extraction workers	1,341	1,594	253	19%
29-1111	Registered nurses	1,936	2,175	239	12%
39-9021	Personal and home care aides	842	1,038	196	23%
35-3021	Combined food preparation and serving workers, including fast food	1,614	1,805	191	12%
41-9022	Real estate sales agents	1,007	1,190	183	18%

Not surprisingly, occupation growth is most concentrated in Bryan, Carter and Pontotoc counties, representing almost two thirds of the region's net job growth between 2010 and 2015 and a roughly equal proportion of the region's overall population. Combined, Bryan, Carter and Pontotoc counties are expected to grow at 9.0%, slightly less than the overall regional growth rate projected to be 9.3% between 2010 and 2015.

* 40 hrs per week & 52 weeks per year to annualize hourly earnings

Source: EMSI Complete Employment - 4th Quarter 2010 www.economicmodeling.com

Collectively, Bryan, Carter and Pontotoc counties are expected to add just over 7,000 jobs between 2010 and 2015. Individually, each county is expected to add slightly over 2,000 jobs during the coming time period. In Bryan County, the top jobs for numeric growth include retail sales, bookkeepers, managers, truck drivers and real estate agents. The largest growing occupations in Carter County are dominated by business, farm and property managers, truck drivers, RNs and petroleum pump operators. In Pontotoc County, the top growing jobs include property managers, truck drivers, waiters, animal caretakers and retail sales staff.

Among the other seven counties in the region, the fastest growing occupations include managers, truck drivers and retail salespersons. Johnston and Murray counties stand out slightly as their list of top ten growth occupations also includes nursing aides, home health aides and LPNs.

HIGHEST PAYING OCCUPATIONS

On average, jobs within the Southern WIA pay \$15.06 an hour. By comparison, EMSI estimates the 2010 statewide average was \$17.36 and the national average was \$20.20. In 2010, average hourly wages for each county ranged between \$12.04 in Coal County to \$17.31 in Carter County.

Regionally, medical related occupations account for five of the top ten highest paid occupations in the region. Physicians and surgeons are among the highest paid in the region, earning an average of \$58.69 per hour. Energy related occupations are also among the highest paid, with geoscientists, engineering managers, and petroleum engineers all among the top ten highest paid occupations, each earning an average wage above \$35.00 per hour. School administrators and judges help round out the top ten.

Again, there is a difference in the top occupations at the county level. Physicians and surgeons are the top wage earners in Bryan, Carter, Marshall and Pontotoc counties, earning an average of more than \$50.00 an hour. In Atoka County, physicians and surgeons are also the top wage earners, but here their wages average \$39.33 an hour.

The top earning occupation in Coal County includes general and operations managers, who earn an average of \$26.83 an hour. In Garvin County, geoscientists are the top wage earners, averaging \$41.62 an hour. Lawyers are the top wage earners in Johnston County, averaging \$30.19 an hour. School administrators are the top wage earners in Love and Murray counties, earning an average of \$37.98 an hour and \$37.99 an hour respectively.

SOUTHERN WIA HIGHEST PAYING OCCUPATIONS

COMMUTING PATTERNS

In the graphs below, the map on the right displays the percentages of a county's employed population that either (1) live and work in the same county, (2) work in the region, but not the same county as they reside, or (3) commute outside the region for employment. Commuting patterns are based on data from the 2000 Census.

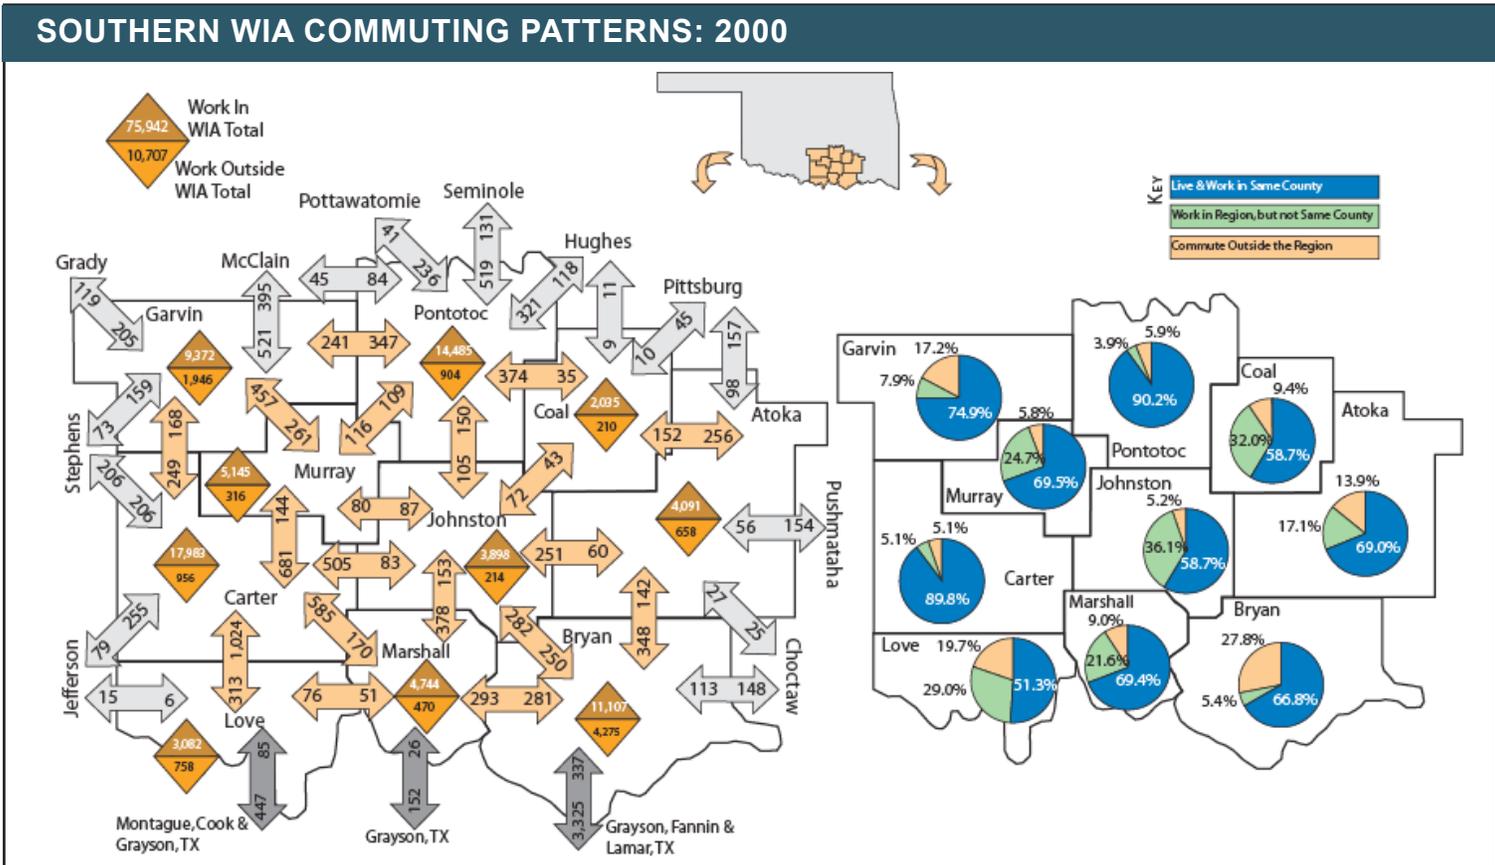

For the most part, workers live in the same county as their place of work, ranging from a low of 51.3% of Love County working residents staying in their county for employment to a high of 90.2% of Pontotoc County working residents staying in their county for employment. On average, 87.6% of all workers living in the Southern WIA stay within the WIA for their place of employment.

Bryan County has the highest percentage of residents commuting outside the WIA for work, at 27.8% of the county's resident working population. A double digit percentage of Love, Garvin and Atoka counties also commute outside of the WIA for work, at 19.7%, 17.2% and 13.9%, respectively.

The map on the left displays the residents of one county who commute to a bordering county within the Southern WIA. This map shows commuting patterns within the region, highlighted in light orange. The map also shows commuters outside the region that travel to and from non-bordering areas of each county; highlighted in contrast orange. Other areas are shaded in contrast gray to represent non-Southern WIA and out-of-state commuters.

On average, 6.6% of all workers in the region commute from outside of the WIA. The ratios vary widely from county to county, as 0.9% of those who work in Johnston County come from outside the WIA while 14.2% of those working in Garvin County come from outside the region.

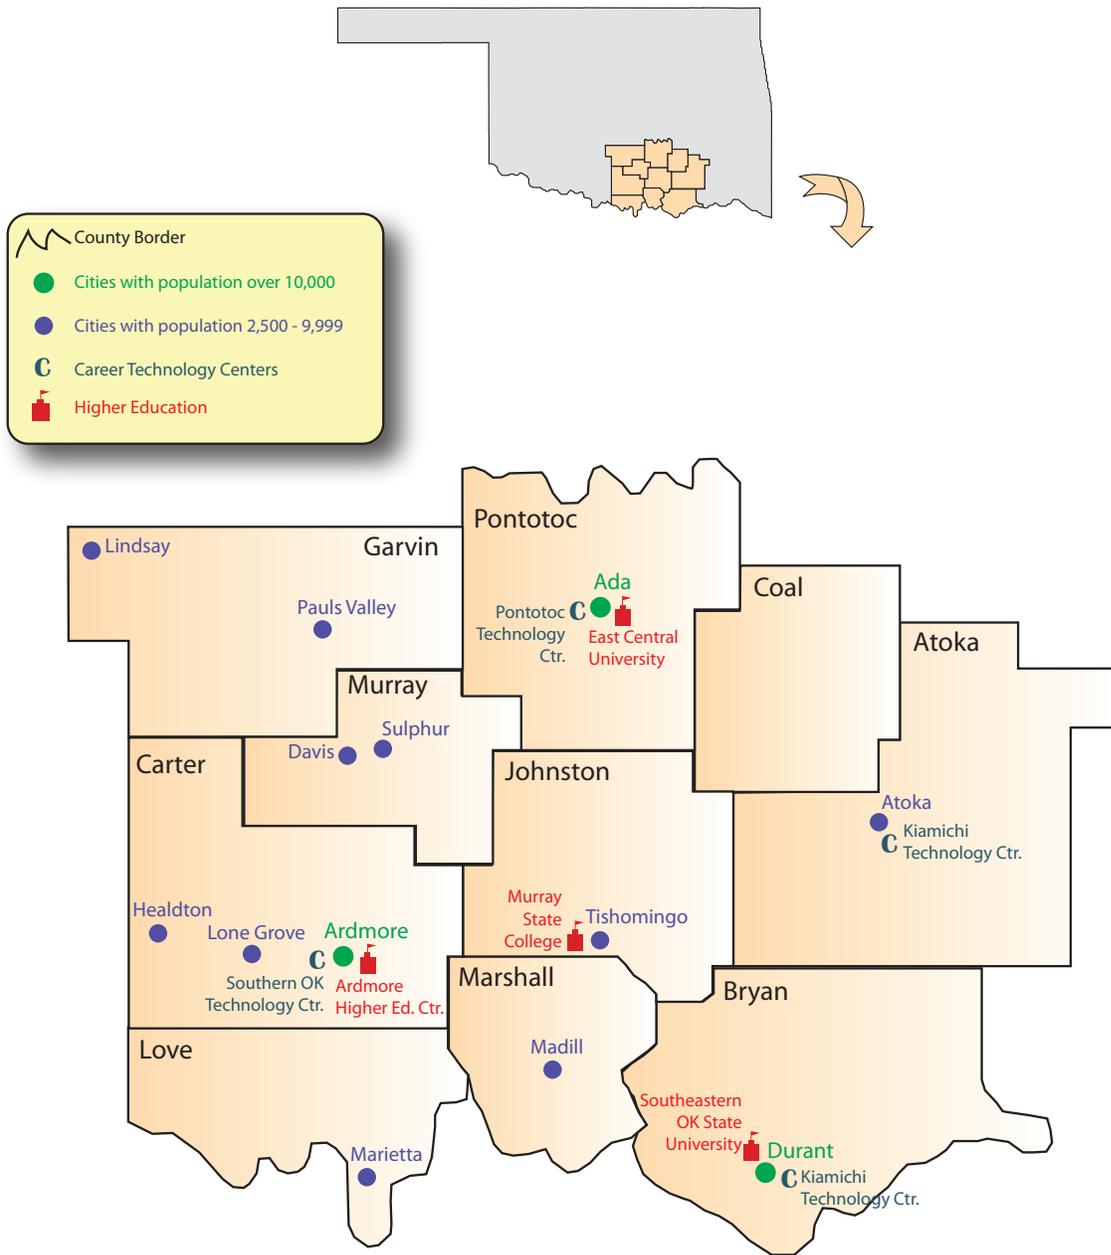

Carter and Pontotoc counties are the only two counties showing a net workforce inflow. Carter County's daytime population grows by over 2,000 as workers from outside the county travel to work, and that growth comes entirely at the expense of other counties within the WIA. The number of Carter County residents commuting outside the region for jobs exceeds the number of workers living outside the Southern WIA who commute in to work in Carter County. In Pontotoc County, the net daytime population grows by just over 1,000, and approximately 600 of those job holders reside outside the Southern WIA.

Source: U.S. Census Bureau, 2000 Census of Population & Housing, Summary File 3

Note: Commuting patterns are based on Census 2000 data and may not reflect recent activities such as employment growth. For more detail, including commuting to counties outside the region, please see the 2006 Demographic State of the State report, which may be viewed at www.okcommerce.gov/sos.
