HISTORY AND PURPOSE OF THE COUNCIL

The District Attorneys Training and Coordination Council (DATCC) was created by the Oklahoma Legislature in 1976 to strengthen the criminal justice system in Oklahoma, to prove a professional organization for the education, training, and coordination of technical efforts of all state prosecutors, and to maintain and improve prosecutor efficiency and effectiveness in enforcing the laws of this state. At that time, the primary role of the Council was training. In 1982, when all general operations of the district attorney system became state funded, the role of the Council expanded and the Council became responsible for additional financial, personnel, and other administrative duties.

Over the years, additional duties have been added to the Council. In 1988, the name of the agency was changed to the District Attorneys Council to reflect these duties. These include enhanced fiscal and budget responsibilities, participation in state governmental boards, studies and events, and computer and networking responsibilities. The Council is the administrative agency for the Crime Victims Compensation Board and the state administrator for many federal grants. Council members, or their designees, also serve as members of numerous boards, commissions, and committees in state government. The Council is further empowered and directed to advise the Legislature on issues affecting the prosecutorial system.

LEADING BY EXAMPLE

In March of 2009, the Oklahoma District Attorneys Council (DAC) launched the *“Let’s Get Moving” Fitness Challenge and Competition ... A Strategy to Get Ourselves Moving and Keep Moving in 2009!* This challenge was the first ever statewide fitness initiative to be implemented by a state agency.

The DAC challenged Oklahoma’s twenty-seven (27) district attorney districts to form district teams to compete against other participating districts and the DAC. In all, 16 DA districts joined the challenge with a total of 336 individual participants. At the close of the challenge, a total of **1,229,533** minutes of cardiovascular activity were logged, with 65% of the participants meeting the goal of averaging 150 minutes per week!

Through the sweat and the tears, aches and pains, these fitness warriors gave it their all. Many of the participants reaped amazing results, ranging from phenomenal weight loss, reduced cholesterol levels, improved blood pressure, increased strength, new found confidence, reduced stress, a sense of accomplishment, and newly formed bonds with co-workers/teammates.

DISCOVER OUR RESOURCES

Oklahoma Crime Victims Compensation Program

Facing the days following a violent act isn't easy for victims and survivors. There are lingering emotional, physical and financial effects that can be overwhelming. The District Attorneys Council Victim Services Division and the Oklahoma Crime Victims Compensation Program strive to help crime victims by providing information, resources and financial assistance to them and the organizations that serve them.

The Crime Victims' Compensation Program is administered by DAC and is dedicated to ensuring that financial assistance is available to eligible violent crime victims for crime-related expenses that cannot be reimbursed by insurance or other sources.

Benefits may be awarded for medical and dental care, prescription medicine, counseling, physical therapy, rehabilitation, work loss, loss of income in homicide cases, caregiver work loss, homicide crime scene cleanup, funeral and burial expenses, and impound fees.

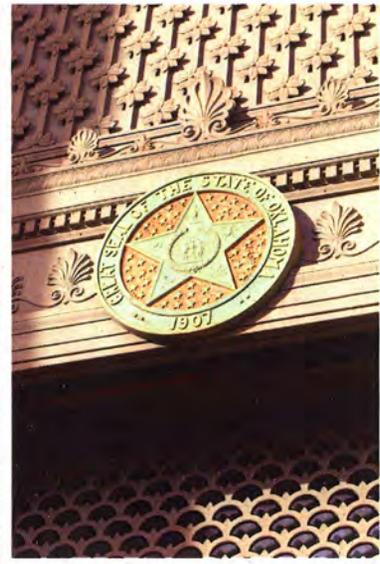

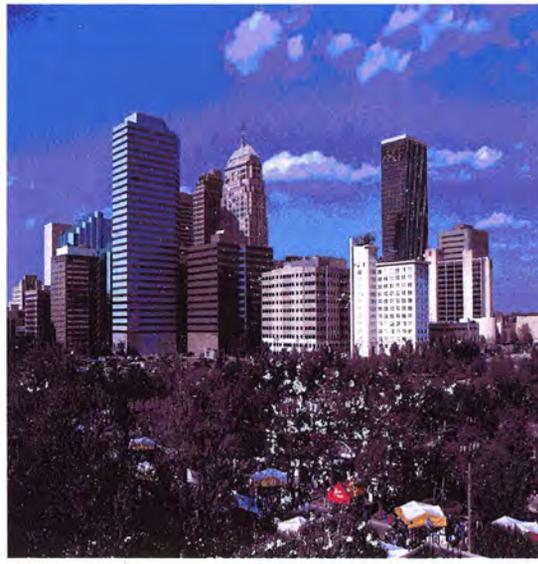

For more information please contact the Victims Services Division at (405) 264-5000.

Coordinated Community Response Resources

The position of a Coordinated Community Response (CCR) Specialist is funded through a grant from the United States Department of Justice, Office on Violence Against Women (OVW). The purpose of a coordinated community response is to develop resources within communities to assist victims and hold batterer's accountable for their actions. Within a coordinated community response is a Domestic Violence Task Force (DVTF). The task force is comprised of the professionals and community members that come together to improve the community's response to domestic violence. The goals of a DVTF generally include facilitating community education, identifying multidisciplinary training, coordinating public awareness and legislative education, identifying gaps in services, and building resources for victims to create a coordinated community response. For more information please contact Sandra Thompson at (405) 264-5000.

Domestic Violence Resource Prosecutor

The position of Domestic Violence Resource Prosecutor (DVRP) is funded through a grant from the United States Department of Justice, Office on Violence Against Women (OVW). The purpose of the DVRP is to increase the capacity of prosecutors across the State of Oklahoma to more effectively prosecute domestic violence cases. Domestic violence prosecutors often have the difficult task of balancing offender accountability with victim safety. By using effective prosecution strategies in domestic violence cases, prosecutors can achieve both. For more information please contact Melissa Blanton at (405) 264-5000.

Traffic Safety Resource Prosecutor

The position of Traffic Safety Resource Prosecutor (TSRP) is funded through a grant from the Oklahoma Highway Safety Office. The position of TSRP is designed to improve the ability of state's prosecutors to effectively prosecute traffic safety violations, particularly focusing on vehicular homicide, Driving Under the Influence (alcohol and controlled dangerous substances), and vehicle crashes involving personal injuries. For more information please contact Daniel Medlock at (405) 264-5000.
