ADD US IN

The Central Oklahoma Add Us In initiative encourages employers and others to recognize the value and talent that people with disabilities, including those from minority communities, bring to the workplace, as well as the dividend to be realized by fully including people with disabilities—because at work, it's what people CAN DO that matters.

Employers have much to gain by having a workplace that is open to everyone. Consumers with and without disabilities favor businesses that employ people with disabilities. What's more, employees with disabilities mirror an important and increasingly expanding customer base.

Every day, people
with disabilities
CAN and DO add
value to America's
workplaces.
