

The Office of Intellectual Property Management at Oklahoma State University assists faculty and staff members, administrators, and students with intellectual property issues resulting from their scholarly and creative activities.

It exists to foster the creation of innovative technologies and to manage those technologies and other intellectual property for the benefit of the University and the public.

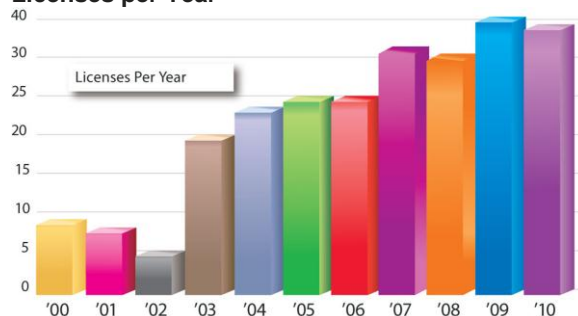

In doing so, OIPM fulfills the third part of OSU's threefold mission: 1) teaching, 2) research and scholarly activity, and 3) service.

### OSU Research Expenditures

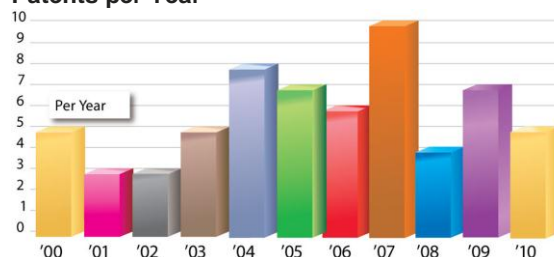

### Technology Transfer Activities

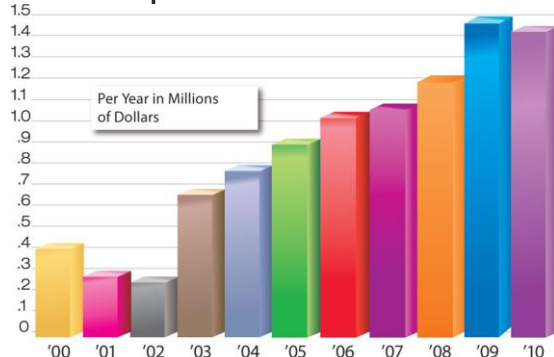

#### Licenses per Year

#### Patents per Year

#### Licenses Expenditures
