# History

Northeast Oklahoma Correctional Center (NOCC) is a minimum security facility for adult male offenders. The facility is located on the grounds of the Oklahoma Forensic Center in Vinita, Oklahoma, formerly known as Eastern State Hospital. A trusty unit was established to provide institutional support to the hospital in 1980. The relationship between the Department of Corrections and the Department of Mental Health and Substance Abuse Services at Eastern State Hospital began in 1985 with the establishment of the Treatment Alternatives for Drinking Drivers (TADD) program. In 1987 the Department of Corrections' Agri-Services Unit began leasing the farmland at Eastern State Hospital. After several years of this expanding relationship, the legislature passed laws in 1994 transferring three large buildings at Eastern State Hospital to the Department of Corrections for use as prison bed space.
