

Tired of long lines and mounds of paperwork? Move your agency's applications and forms online to allow your users the convenience of accessing your agency's services on the Internet.

Online Services

OK.gov can provide your agency with our award-winning Content Management System that allows agency staff to easily build and maintain your agency's Web site. Our system meets and exceeds not only Section 508 standards, but also the state of Oklahoma's usability and accessibility standards.

Web Site Management Suite

OK.gov employs security standards to ensure your agency's online applications, Web sites, and forms are constructed with the highest degree of safety and security.

Online Security

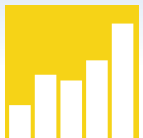

Does your agency have the need to offer electronic payments for your constituents? OK.gov's payment engine provides easy, secure, and seamless online payment integration for services such as license renewals and online stores.

Online Payment Solutions

Even the best Web applications and sites are useless if no one knows they exist. OK.gov offers marketing solutions to fit your agency's needs and has developed a variety of award-winning strategies to increase adoption rates of your agency's online services.

Marketing Services

OK.gov provides specialized customer service at no additional cost based on the needs of the agency and the application. From login issues to payment questions, OK.gov representatives assist the agency and users through applications with step-by-step processes.

Customer Service Support

Oklahoma's Official Web Site

OK.gov is the central gateway to Oklahoma's government via the Internet. The portal has been in operation since 2001 as a result of House Bill 1662 of the Oklahoma Legislature. It functions as a public/private partnership between the Oklahoma Office of State Finance and leading eGovernment firm NIC Inc (www.nicusa.com). This partnership was formed to encourage citizens to get "online" instead of "in line" to interact with their state government.

Your Partner for Digital Government Services

Online Services

"We utilized OK.gov for various projects including a Licensee Search, Licensee and Examinee Mailing Extracts, Continuing Education and a License Renewal System. These projects were accomplished in a timely and professional manner, and OK.gov provided solutions to benefit us and our customers."

- Anne M. Woody
Oklahoma Real Estate Commission

Web Site Creation Tools

"I once thought PCs were nothing more than fancy typewriters. It was like Greek to me at first, and now I'm the Webmaster for my agency."

- Rose Lewis
Oklahoma Department
of Corrections

What
people
are
saying.

Marketing Services

"The promotional flyer OK.gov created for us provides an excellent eye-catching summary of the advantages of our online licensing."

- Michelle Imel
Oklahoma Department
of Wildlife Conservation

Customer Service Support

"The customer service support that OK.gov provides for the Oklahoma Ethics Commission Campaign Reporting System is excellent. It has reduced the amount of work that we would have had to do. Their staff even provided training to campaign committee members on our new system!"

- Marilyn Hughes
Oklahoma Ethics Commission

Put Your Services Online

In an age where most information is available online, OK.gov offers a number of unique services for state agencies, offices, and boards. These services are designed to increase visibility and efficiency while promoting government services to the public. Such online services include: notification systems, professional license renewals, and public lookup tools.

Avoid the RFP Process

State agencies can avoid the often cumbersome process of submitting RFPs by instead signing a simple, pre-approved, two-page interagency agreement with the Office of State Finance (OSF). Once this agreement is signed, your agency may deal directly with OK.gov with respect to all aspects of application development and Web site creation.

eGovernment Experts

OK.gov was built and is managed by Oklahoma Interactive, a subsidiary of NIC Inc., a company that has developed more Web-enabled government solutions than any other provider in the world. We have access to over 1,000 object-oriented eGovernment applications used by OK.gov and other NIC states that can be customized to meet your needs.

Top Notch Security

Our security policies and technology are designed to make your online transactions safe, private, and secure. Rigorous policies and procedures are utilized to safeguard your personal information, such as social security numbers, banking information, and personal data.

We comply fully with the State of Oklahoma Information Security Policy, as well as the Payment Card Industry Data Security Standards. Further, since NIC Inc., is publicly traded (Nasdaq: EGOV), we are obliged to implement the information security standards set forth in the Sarbanes-Oxley Act of 2002.

Custom Solutions to Fit Your Needs

OK.gov creates online options for your constituents to enhance their lives and maximize productivity. We work hand-in-hand with you to identify issues and create specific solutions for your online government needs. Whether your needs are small or large, OK.gov is ready to assist. We offer several services including:

- Application Development
- Web Site Management Tools
- Online Payment Solutions
- Marketing Assistance
- Customer Service Support
