

Inspection Tips

- Notify Operator contact. Be considerate.
- Naturally an adversarial relationship.
- Be professional and courteous.
- Observe
- Ask questions then listen.
- Take notes
- Take photographs
- Know locations
- Know construction procedures and operator's plans and procedures.
- Argue or not? Pick your battles.
- Report
- Do not direct contractor or employee's actions
- Direct contractor questions to the inspection company (take note of occurrence and report; ask yourself why is the workman asking you questions about construction practices)
