Deputy Warden

# History

The Mabel Bassett Correctional Center (MBCC) is the only medium security institution for women in the state of Oklahoma. The center was originally located in northeast Oklahoma City, adjacent to the Department of Corrections Administration Building. Opened as a community treatment center in January, 1974, the center was changed to a medium security facility in 1978. In 1982, Mabel Bassett was converted to include maximum security. Offenders assigned to MBCC range from minimum security to Death Row.

Additionally, MBCC supervises the security of all Department of Corrections offenders requiring hospitalization, through an agency contract with the OU Medical Center. The unit also supervises the holding area where offenders from all Department of Corrections facilities are held awaiting medical appointments at the Medical Center.

MBCC houses the Assessment and Reception Center for females incarcerated in the state of Oklahoma. Mabel Bassett Assessment and Reception Center (MBARC) is a security unit that receives females sentenced to prison by the courts. During the reception period that ranges from approximately 10-30 days, staff determines through various assessments which Department of Corrections facility the offender will be assigned to and what program criteria they meet.
