- General Information

NOTICE OF INVITATION TO BID AT PUBLIC AUCTION FOR SCHOOL LAND AGRICULTURAL LEASES

The Commissioners of the Land Office of the State of Oklahoma (CLO) invite bids on agricultural leases at public auction at the time and place shown on page 1, or at such other place as may be announced at time of auction. The terms and conditions are hereinafter set forth covering the land and improvements, if any, listed on the following pages.

A lease contract shall be awarded upon approval of CLO to person bidding the highest annual cash rental. CLO reserves the right to reject any or all bids and shall refuse to accept any bid on agricultural lease where party placing the bid is in default of any rental due or in violation of this or any prior lease contract. A bid less than advertised minimum acceptable bid will not be considered.

On date of auction, successful bidder must pay 50 percent of first year's rent as deposit. Any bids of \$500 or less must be paid in full. Failure to comply with terms of invitation to bid notice will be cause for cancellation of award and retention of deposit as liquidated damages. CLO retains option to proceed to collect for entire amount of contract. Contracts, not executed on date of auction, are to be returned to CLO not later than 15 days after date of auction. Balance of bid rental, if any, is to be remitted on or before January 1, 2009, and before possession is taken of any part of leased land.

All bidders are hereby notified that driver license numbers for all named lessees must be submitted on date of auction.

Improvements located on offered leases considered movable without manifest injury to the land are subject to being removed or otherwise disposed of by the lawful owner(s). Any fences required by agreement or by operation of law shall be constructed and paid for by lessee. Such improvements must be removed or disposed of within 60 days after expiration of contract. If there is a growing wheat crop on a lease, irrigation pumps and motors may be left in place until April 1 of year following expiration of contract. Possession and/or use of well goes to new lessee no later than April 5 following expiration of lease.

Improvements located on offered leases considered not movable without manifest injury to land (i.e. ponds, dams, terraces, water wells, waterways, and other conservation structures, etc.) are a permanent part of the land and are exclusive property of CLO.

Irrigation permits may be issued to agricultural lessees for the purpose of irrigating CLO Trust Lands. The permit fee shall be determined by the market value rental amount for irrigated acres for comparable deeded land. The permit shall have a delinquency interest rate of 16%. Term of the permit will be for one year.

All leases are sold subject to existing easements.

Lease term will be specified in auction notice and lease contract.

Small grains planted during last year of lease contract may be harvested in next year, but land must be surrendered immediately after harvest or not later than July 1, 2009, whichever is sooner. Extensions may be granted at the discretion of CLO. In the event small grain crop is pastured out and not mechanically harvested, land shall be surrendered no later than June 1, or when cattle are removed, whichever is sooner, in year following expiration of lease contract. If small grain is mowed and baled for hay, those acres must be surrendered when bales are removed or no more than 10 days after baling, but no later than June 1, 2009. All pasture land, including water thereon, must be surrendered December 31st final year of contract.

Terms and conditions of lease shall be set forth in lease contract which shall be subject to applicable rules and regulations of CLO and Statutes of the State of Oklahoma now in force, or hereafter adopted. All bidders are hereby notified to retain this page as it will be incorporated into the contractual obligations.

Prospective bidders are encouraged to inspect leases and review CLO lease contract prior to date of auction and contact FSA office for allotments, applicable farm program requirements, and eligibility of entering leases into government farm programs after expiration of lease contract and HEL requirements.

ANNOUNCEMENTS AND CORRECTIONS AT TIME OF AUCTION MAY SUPERSEDE THIS NOTICE.
Dated this 17th day of July, 2008.

GENERAL INFORMATION

Following are answers to some of the most commonly asked questions regarding the properties to be auctioned:

QUESTION #1: Who owns the fences, barns, windmills, etc., on School Land Trust leases?

Generally, improvements belong to the lessee. Improvements must be removed or disposed of within 60 days after expiration of lease contract. They may be sold to the new lessee or removed by the former lessee. The value of the improvements is established by the owner.

QUESTION #2: Does the School Land Trust pay for fences, which are needed on a lease?

Any fences required by agreement or by operation of law shall be constructed and paid for by lessee. An Improvement Request must be approved before construction; fences then become the property of the lessee.

QUESTION #3: Can I plant a wheat or oat crop during the final year of the contract if I have already planted and harvested a summer crop that same year?

No. According to Paragraph 4.3.11 of the School Land lease contract: "Double cropping shall not be permitted" ... "Lessee is afforded the opportunity to harvest one crop per year of lease contract."

QUESTION #4: When does new lessee take possession of the lease?

Leases consisting of strictly pasture are to be relinquished to the new lessee not later than January 1, 2008. If the lease contains cropland with a growing small grain crop, then the lessee prior to the auction and owner of the small grain crop has the right to graze the grain and relinquish the lease no later than June 1, 2008, or mechanically harvest the crop and relinquish the lease no later than July 1, 2008. Extensions of time to complete harvest of crops may be granted by the Land Office.

QUESTION #5: Can I let other people hunt on my lease?

Yes, as the lessee you have the right to allow other people on the lease, but you also have the responsibility to indemnify the School Land Trust against all claims arising out of use of the Land as per Paragraph 3.6 of the lease contract.

QUESTION #6: Do I have to plow the cropland acres if I only run cattle?

Yes, you are required to maintain bases and protect the land from waste. If you allow weeds to grow on the cropland, you are permitting waste on the property, which violates Paragraph 4.5 of the lease contract.

QUESTION #7: Can I run more cattle on a lease than the number shown in the advertisement?

The estimated cow units shown on the ad is just that, an estimate; but it is a close estimate. Any adjustment in cow units requires written permission from the Real Estate Management Specialist (RMS). If there is an abundance of grass on the leased property, the RMS may increase the number of cow units. On the other hand, if the grass is depleted too quickly, the number of animals allowed on the leased property may be reduced.

QUESTION #8: Can I plow up the pastureland to grow more crops?

No. Under Paragraph 4.3.5 of the lease contract, "Prior written permission from CLO will be required before any permanent pastures are plowed out, timber cleared or cut, or any sod or sprigs are removed from lease." This means that the School Land Trust does not normally allow pasture to be plowed out, and if permission is granted it must be in writing.

QUESTION #9: Is the final bid price my annual rent or a bonus?

The final bid price at the auction is the amount to be paid for each year of the contract. If you bid \$1,000 for a lease and it is a 5-year lease, you will pay a total of \$5,000 for the lease, \$1,000 each year of the contract.

QUESTION #10: Does the Land Office pay for soil conservation work?

The Land Office agrees to provide technical assistance to Lessees for preservation, conservation and management of Trust lands. Limited funds are available for special projects. Pre-construction approval must be obtained from the Land Office before CLO funds can be used for any project.

QUESTION #11: Can my School Land lease be sold during my lease term?

Yes. Paragraph 2.4 reserves the right of the Land Office to sell all or a portion of the lease at any time. Lessees will be notified well in advance of the potential sale to ensure disruptions to the Lessee's operation are minimized.

QUESTION #12: Where can I get more information about specific leases?

Call the Oklahoma City office staff or the area Real Estate Management Specialist for information about specific leases or any questions you may have.

QUESTION #13: Can I irrigate a lease?

Yes. Many leases have irrigation wells or are adjacent to land with an irrigation well. The lessee may apply for an irrigation permit at a charge determined by the market value rental amount for irrigated acres for comparable deeded land. Permits run April 1 to March 31 of each year.

Cost statement:

This publication, printed by the University of Oklahoma Printing Services, is issued and authorized by the Commissioners of the Land Office. 8,600 copies have been printed at a cost of \$. Records in the Land Office are public records and as such are open for public inspection during office hours.

COMMISSIONERS OF THE LAND OFFICE

ADMINISTRATION

Clifton H. Scott, Secretary

COMMISSIONERS

Brad Henry, Governor
Jari Askins, Lt. Governor
Steve Burrage, State Auditor
Sandy Garrett, State Superintendent
Terry Peach, Agriculture Board President

Dear Fellow Oklahoman:

The annual fall school land auction will be held October 20, 2008 through November 4, 2008. The fiscal year 2007-2008 leases generated in excess of **11.3** million dollars for public education. The dates for the particular tracts in certain counties are itemized in the brochure.

The School Land Commission has 559 tracts of land available for lease this fall in 34 different counties. Uses for these properties vary from tract to tract. First and foremost is agriculture, but tracts are also available for sporting and commercial leases under the right circumstances.

We wish to thank our lessees for assisting us in distributing in excess of 73.4 million dollars during Fiscal Year 2008 for public education. People who work the land have always done so with an eye to the future. I know of no better way to build on the future than by putting millions of non-tax dollars into our public education system. And for that, the Commissioners of the Land Office and staff wish to thank each of our lessees.

This brochure will list the properties available for lease and most lease terms are for five years. Any questions you may have may be addressed by phone call to this office 1-888-355-2637 or (405) 604-8100. You may also visit our website at www.clo.state.ok.us. We look forward to seeing you at one or more of our auction sites in the scheduled weeks.

Sincerely

Clifton H. Scott
Secretary to the Commissioners
