

ACKNOWLEDGEMENTS

This conservation guide was made possible primarily through the research efforts of Jim Schuelein, Hydrologist and Assistance Division Chief for the Oklahoma Water Resources Board's Planning and Development Division. Special recognition goes to Mr. Schuelein for his dedication and concern in promoting continual water conservation programs and public awareness of water conservation techniques.

The guide was reviewed and edited by Rick A. Smith, Chief of the Planning and Development Division, and Terri Sparks, Planning Assistant, who also provided valuable input and constructive advice.

Special thanks go to Kathy Mason, Division Secretary, for her patience in typing the handbook and producing a highly professional final product.

A handwritten signature in black ink, appearing to read "James R. Barnett", with a stylized flourish at the end.

James R. Barnett, Executive Director
Oklahoma Water Resources Board
